SUMMARY

Detail-oriented Software Engineer with over four years of experience designing, developing, and maintaining scalable software solutions. Experienced in leading development teams, designing system architectures, and delivering secure, high-performance applications. Strong analytical and problem-solving skills with a passion for building maintainable software, improving development workflows, and delivering innovative technology solutions.

WORK EXPERIENCE

- Head of IT, Technology Multi System Corporation

May 2024 - Present

 - Led the IT division and managed software development projects.
 - Designed system architecture and development workflows.
 - Supervised developers and coordinated project execution.
 - Planned, developed, and maintained web-based applications.
 - Managed server infrastructure, deployment, and security.
- Internship, BBPPMPV-BMTI (Kemendikdasmen)

Oct 2023 - April 2024

 - Assisted in developing and maintaining backend services for internal applications.
 - Worked with databases and APIs to support system functionality.
 - Participated in testing, debugging, and improving application performance.
 - Delivered a live presentation of the completed application to instructors and training participants, explaining features, workflows, and technical implementation.
- Freelance Web Developer

2022 - Present

 - Develop custom websites and web applications for clients.
 - Create responsive user interfaces and backend systems.
 - Implement database design, authentication, and API integrations.
 - Provide maintenance and feature enhancements for existing projects.

EDUCATION

- Bachelor of Information System (S.I.)

2025 - Present

Universitas Terbuka

 - Currently pursuing a degree in Information Systems with a focus on software development and information technology.
- Software Engineering (Rekayasa Perangkat Lunak)

2021 - 2024

SMKN 1 Ciamis

 - Graduated in 2024 with a specialization in software development, web technologies, and database systems.

KEY SKILLS

- PHP
 - Laravel
 - JavaScript
 - MySQL
 - RESTful APIs
 - Database Design
 - Software Architecture
 - System Design
- Git & GitHub
 - Linux (Ubuntu)
 - Nginx / Apache
 - API Integration
 - Clean Code
 - Performance Optimization
 - Team Leadership
 - Problem Solving
